## Tony on the podium first time out with Nero Rosso!

The plan was to do a steady race and collect points enough to still be in the lead of the championship but after a brilliant qualifying the expectations increased. Tony made his debut for Scuderia Nero Rosso at Hockenheim last weekend and managed to do the best result for a Ferrari in two years time in the DMV Tourenwagen Challenge. Tony was third off the grid but passed the Porsche of Martin Dechent on lap two to spend the rest of the race trailing the eventual winner Jürgen Benders Porsche.

With no less than 44 cars starting the race there was a lot of lapping to do and Tony drove with a good margin to save the car and be sure to finish.

In race two Tony messed up the start trying to avoid a Porsche that forgot to brake for the first corner and had to take a turn outside the track.

Having to work harder than in race one Tony advanced to a final sixth place, a decent result but still disappointing after the previous success.

All in all everybody was happy and Tony extended the lead in the championship so the hope is that we should find a way to continue the successful cooperation with Scuderia Nero Rosso.

## WANT TO BE INVOLVED IN SWEDENS BIGGEST MOTORSPORT EVENT?

Since the rebirth three years ago of the Midnight Sun Rally, the event has quickly become the biggest motorsport event in Sweden all categories.

No less than 500.000 spectators saw one or more stages last year and the hopes are to opt that figure this year when the Rally will be decided between July 16 and 19. From Jönköping via Trollhättan, Årjäng and Karlstad the Rally will finish in Tony's birth town Karlskoga.

I will for the third year in concession race one of the classic cars from SAAB and this year it looks like we will run the Monte Carlo car from 1964.
